

Nurali Galiev

Computer Engineer

PROFILE

Motivated Computer Engineering student with strong programming skills (Python, JavaScript, HTML/CSS) and hands-on experience in IT infrastructure, network administration, and technical support. Well-versed in network troubleshooting, Active Directory and Linux administration, as well as enterprise information systems maintenance. Eager to apply technical knowledge and practical background to software development and IT engineering projects.

WORK EXPERIENCE

IT-Support

IT Intern — Department of Digital Technologies, Aktobe | May 2026 - Jul 2026

- **Network Infrastructure:** Crimped UTP cables, cross-connected patch panels, configured switches (VLAN, port diagnostics), and set up IP telephony.
- **Admin & Security:** Managed Active Directory tasks (password resets, user onboarding) and Linux servers via SSH; set up secure workflows (NCALayer, digital signatures).
- **Support & Inventory:** Provided staff IT support (PC diagnostics, network printer/MFP setup) and conducted hardware inventory audits.
- **Analytics & Projects:** Contributed to the "250+" rural communication project in Aktobe, audited state systems, and authored staff technical guides.

A tool or method

A key strength

IT-Support

IT Intern — KMG Kumkol LLP, Astana | Jun 2025 - Jul 2025

- **Technical Support:** Resolved SAP ERP/EMP issues and analyzed system logs using Event Viewer and WebLog Expert.
- **IT Asset Management:** Conducted hardware inventory, managed equipment intake/returns, and maintained documentation.
- **Development Support:** Assisted in backend microservices creation (FastAPI, Git) and explored frontend basics (HTML/CSS, Angular).
- **Data Analysis:** Examined enterprise data warehouse architecture and Power BI dashboards to track KPIs.
- **Documentation:** Authored internal onboarding guides and account recovery procedures.
