NURALI GALIEV

COMPUTER ENGINEERING / SOFTWARE / NETWORKS / SECURITY

Aktobe, Kazakhstan • +7 777 492 14 49 • nuraligaliev@outlook.com
github.com/Kore-net2 • kore-net2.github.io/portfolio/ • linkedin.com/in/nurali-galiev-41053a363

PROFILE

Final-year Computer Engineering student with hands-on experience in IT support, networking and practical software development. Work includes Python, C#/.NET, JavaScript, Linux, Active Directory, Raspberry Pi and enterprise IT systems. Interested in secure infrastructure and building approachable, useful technology.

EDUCATION

BSc (Hons) Computer Engineering | Heriot-Watt University & Zhubanov University, Aktobe | 2023–2027 (expected)

TECHNICAL SKILLS

Programming Python, C#, C, JavaScript, HTML/CSS; algorithms, OOP, basic UI design
Platforms & tools .NET 10, Git/GitHub, Linux, Windows, Active Directory, Raspberry Pi/GPIO
Networking & security Cisco IOS, GNS3, VLANs, IPv4/IPv6, Wireshark, SSH, network troubleshooting

SELECTED PROJECTS

Temperature Monitor | C# / .NET 10 / MSTest
Console tool for validating temperature inputs, computing min/max/mean and classifying Low / Normal / High readings; includes automated unit tests. github.com/Kore-net2/TemperatureMonitor

Personal Portfolio | HTML / CSS / JavaScript
Multi-page website with custom styling, responsive layout and a light/dark theme. Deployed on GitHub Pages: kore-net2.github.io/portfolio/

MasterMind on Raspberry Pi 4 | C / ARM Assembly / GPIO
University team project using buttons, LEDs and LCD. Contributed to wiring, hardware checks and implementation.

Sudoku Solver | Python / Backtracking
AI coursework solver using row, column and 3×3 constraints to search for valid Sudoku solutions.

Network Engineering Labs | GNS3 / Cisco / Wireshark
Designed and tested routed topologies and network-security scenarios, including BGP, OSPFv3, IPv4/IPv6 and ACL concepts.

On-Gateway IoT Botnet Detection — Honours research (in progress) | IoT Security / Raspberry Pi
Research and methodology planning for a lightweight IoT anomaly detector; implementation and experiments have not begun.

EXPERIENCE

IT Intern — Department of Digital Technologies, Aktobe | May–Jul 2026
- Supported cabling, switch/VLAN diagnostics, IP telephony, Active Directory tasks and Linux access via SSH.
- Assisted with IT support, inventory, digital-signature workflows and “250+” rural connectivity analysis.

IT Intern — KMG Kumkol LLP, Astana | Jun–Jul 2025
- Supported enterprise IT processes: SAP troubleshooting, Windows event-log review, device inventory and user guides.
- Explored FastAPI/Git workflows, frontend fundamentals and Power BI reporting in an enterprise setting.

CERTIFICATION & LANGUAGES

Cisco Networking Academy Ethical Hacker — Certificate of Course Completion | 13 Sep 2026
Languages Kazakh, Russian, English
